Figure 2. The only two Journals in WoS

Unluckily, the current list of journals in WoS has very little coverage, and the two journals (Science and PLOS ONE) are too much wide.

Figure 5. Spatial and temporal coverage of DH journals and DIMENSIONS

Instead, the other datasets have more coverage. In particular, Dimensions has 21 journals.

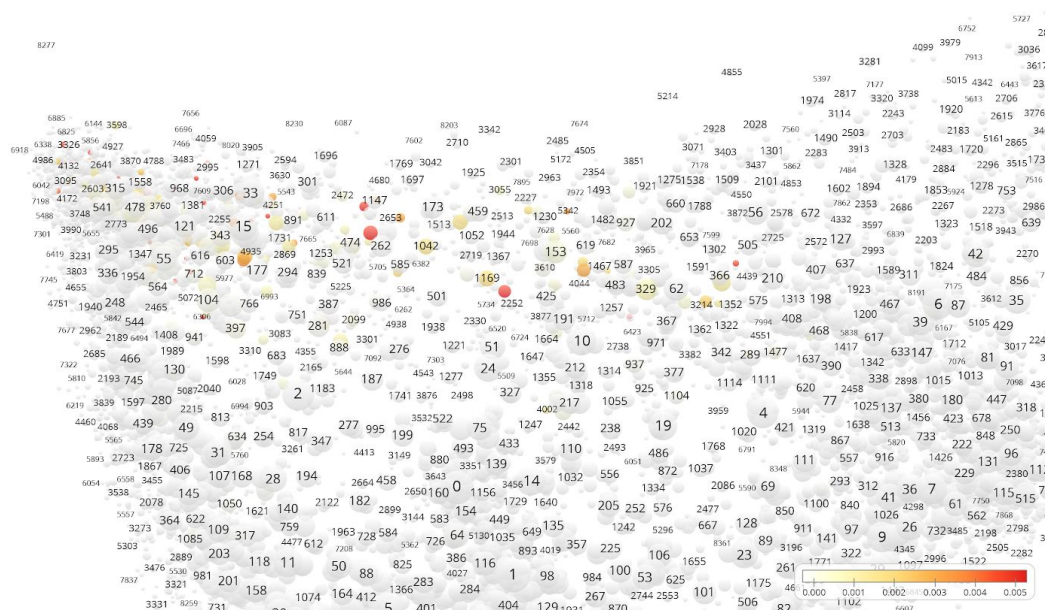

Figure 6. Plotting the percentage of publications related to Exclusively and Significantly DH journals in Dimensions. The percentage range is very low.

In Dimensions, I have plotted the percentage of publications issued in the journals from the list. Now, the percentages are very low. All the clusters are from the AH field.
